

Cambrian Caving Council AGM 2015
Legal & Insurance Officer's Report

The legal issue this year has surrounded the forestry mines access agreement with NRW, which has been mostly handled by the Conservation/Access Officer. To shield members of the Caving Council from the various liabilities that such an agreement creates, the agreement is between NRW and Cave Access Ltd, a company limited by guarantee specifically for this purpose. It is anticipated that the company will have no significant accounting transactions and therefore be dormant with a low statutory burden.

When negotiating the agreement with NRW, the BCA clarified matters relating to the scope of BCA insurance, which NRW eventually accepted.
